

FIG. 1

FIG. 2

FIG. 3 is a perspective view of the device 100 in a closed position. The device 100 includes a first member 101 and a second member 102. The first member 101 is a long, narrow, flexible strip. The second member 102 is a shorter, wider, flexible strip. The first member 101 is connected to the second member 102 at one end. The first member 101 is shown in a folded position, with the second member 102 partially covering it. The device 100 is shown in a perspective view, with the first member 101 and the second member 102 being the main components. The first member 101 is a long, narrow, flexible strip. The second member 102 is a shorter, wider, flexible strip. The first member 101 is connected to the second member 102 at one end. The first member 101 is shown in a folded position, with the second member 102 partially covering it. The device 100 is shown in a perspective view, with the first member 101 and the second member 102 being the main components.

FIG. 3

FIG. 4 is a perspective view of the device 100 in a closed position. The device 100 includes a housing 102 and a display 104. The housing 102 is formed by a front panel 106 and a back panel 108. The display 104 is mounted on the front panel 106. The device 100 is shown in a closed position, with the back panel 108 covering the display 104. The device 100 is shown in a perspective view, with the front panel 106 and the back panel 108 being visible. The device 100 is shown in a perspective view, with the front panel 106 and the back panel 108 being visible. The device 100 is shown in a perspective view, with the front panel 106 and the back panel 108 being visible.

FIG. 4

FIG. 7 is a perspective view of the device 100 showing the top surface 105 and the side surface 132. The device 100 includes a main body 105, a side panel 132, and a top panel 129. The side panel 132 is connected to the main body 105 by a hinge 137. The top panel 129 is connected to the main body 105 by a hinge 131. The device 100 also includes a plurality of fasteners 130 and 133, and a plurality of openings 128 and 137.
